RE2 Unit 6 · 作业 3 · Unit 6B Lesson 1（词汇课后）

After 6B1 · The Truth About Great Whites — Words | 40 minutes | Name: _____ Date: _____
Each reading question has a **strategy label**. Your teacher marks each strategy separately, so you can see which reading action is getting stronger.

Part A · Words — 30 marks

A1 Word bank — write each word next to its meaning — this unit — 8

horror · confusion · victim · frightening · tempting · force · inaccurate · gather · flow · bite (two are extra)

1. a strong feeling of shock and fear _____
2. not knowing what is happening _____
3. a person who is hurt by something _____
4. making you feel afraid _____
5. attractive — it makes you want it _____
6. the strength or power of something _____
7. not true / not correct _____
8. to collect things together _____

A2 Word parts — add *in-* and write the meaning — 6

9. complete → _____ = _____
10. correct → _____ = _____
11. expensive → _____ = _____

A3 Choose the correct word — 5

12. Most rivers *flow / force* into the sea.
13. Seeing a shark in the water is a *frightening / tempting* experience.
14. Researchers put food in the ocean. Its *tempting / gathering* smell attracts the sharks.
15. Serious damage from a shark bite is due to the size and sharpness of the teeth rather than the *flow / force* of the bite.
16. Each year, great whites *gather / flow* near Cape Town to eat seals.

A4 Write your own sentence — 5

17. Use **in horror and confusion** — one true or imagined sentence (at least 8 words).

_____

A5 Old words — Unit 2 & 4 review — 6

accurate · aware · convince · impact · respect · inspire

18. The film did not give an _____ picture of sharks.

19. Divers _____ these animals and keep their distance.

20. Are you _____ that most shark victims survive?

21. It is hard to _____ people that sharks are not man-eaters.

22. One famous film had a huge _____ on how people see sharks.

23. Stories about the ocean can _____ young scientists.

Part B · Reading — 45 marks

A new text. Read it once, then answer. Watch the contrast signals.

The Animal Nobody Wanted to Save

Ask a class of children to name a frightening animal and someone will say "bat". Bats appear in horror films, and many people believe they attack hair, carry disease, and drink blood. Almost all of that is inaccurate.

Of more than 1,400 kinds of bat, only three feed on blood, and all three live in Central and South America. The rest eat fruit or insects. A single small bat can catch well over a thousand mosquitoes in one night. Farmers in some countries now build bat houses beside their fields, because bats eat the insects that damage the crops.

Bats also plant forests without meaning to. They feed on fruit, fly long distances, and drop the seeds far from the parent tree. In some tropical forests, most new trees in an open space grew from seeds a bat carried there.

Even though their value is now well known, bats are still in trouble. A disease has killed millions of them in North America, and many people still destroy the caves where they sleep. Despite all the work bats do for us, they remain one of the least popular animals to protect.

1. **Main idea** — strategy: main idea — 6

What is the text mainly about?

a. how to build a bat house b. why bats are useful even though people fear them c. the three kinds of bat that drink blood

2. **Contrast** — strategy: contrast — 7

Find **two** contrast signals in the text (words like *but, however, even though, despite*).

_____ _____

3. **Contrast** strategy: contrast 7

The last paragraph contrasts two things. Complete both sides.

People now know that bats _____, **but** bats are still _____.

4. **Detail** strategy: detail 6

Why do some farmers build bat houses?

a. Bats eat the insects that damage crops. b. Bats plant new fruit trees in the fields. c. Bats keep other animals away at night.

5. **Fact or speculation** strategy: fact vs speculation 7

Write **F** (fact stated in the text) or **B** (a belief people hold).

_____ Bats attack people's hair. _____ Only three kinds of bat feed on blood.

_____ A disease has killed millions of bats in North America.

6. **Vocabulary in context** strategy: guess from context 6

"…seeds far from the **parent** tree." *parent tree* means:

a. the tree the fruit came from b. the biggest tree in the forest c. a tree planted by a person

7. **Inference** strategy: inference 6

Why does the writer begin with a class of children naming a frightening animal?

a. To show that children know a lot about bats. b. To start with the common belief the text will correct. c. To explain how horror films are made.

Part C · Write 25 marks

Write a **short paragraph (4–5 sentences)** about an animal, a person or a place that **people judge wrongly**.

Use **one** contrast signal (*but · however · even though · despite*) and at least **two** words from this unit.

Frame — you may use it:

Idea: Many people think _____ is _____.

Contrast: However / Even though _____, _____.

Evidence: For example, _____.

Close: So the popular idea is _____.

Before you hand it in — tick what is true

- ☐ I used the target word(s) the task asked for.
- ☐ My paragraph has an idea, a reason, and an example.
- ☐ I read it once more and fixed anything that did not make sense.
